## SKILLS

**Languages:** Python, SQL, JavaScript, TypeScript, Java, C/C++, HTML, CSS

**Frameworks & Tools:** React.js, Next.js, Node.js, Tailwind CSS, Supabase (PostgreSQL), Git/GitHub, Docker

**Data & Analytics:** Power BI, DAX, Power Query, Python (Pandas, NumPy), Microsoft Excel, Data Visualization

**Product & Design:** PRDs, User Research, Roadmapping, Backlog Prioritization, Agile/Scrum, Jira, Figma

## EXPERIENCE

### Dr. Quan & Associates, Optometrist

Jul 2022 – Present

*Office Administrator*

*Calgary, AB*

- Analyzed the pretesting and patient intake workflow to identify bottlenecks and redesigned the **business process**, increasing clinic throughput from 3 to 4 patients per hour (+33%)
- Managed scheduling and daily operations for 250+ patient appointments per week using **RevolutionEHR**
- Coordinated referral tracking across 20+ specialist clinics, keeping accurate **records** for timely patient follow-up

### WayBionic

June 2026 – Present

*VP Internal*

*Calgary, AB*

- Led delivery of the team's website, managing the **backlog** and **sprint planning** in **Jira**, designing in **Figma**
- Developed and **presented a cross-functional recruitment strategy** to engineering sub-team leads, iterating each cycle based on **retrospective data** and structured outreach to grow membership from 30 to 64 (+113%)
- Used **AI tools** to establish brand guidelines and led marketing campaigns that grew social following by 100+ in 3 months

### University of Calgary Solar Car Team

Oct 2024 – Apr 2025

*Software Developer*

*Calgary, AB*

- Built a 12-channel sensor **telemetry and performance-monitoring system** for a solar vehicle that competed in the American Solar Challenge 2026
- Reconciled telemetry **requirements** from 8 subteam **stakeholders** against capacity and deadlines, communicating trade-offs to keep work on schedule
- Built and tested the team's public-facing website using **React** and **TypeScript**, managing code collaboration and version control through **GitHub**

### Calgary eSports United

Aug 2022 – Mar 2024

*Founder / President / Director of Communications*

*Calgary, AB*

- Scaled the organization to 1,500+ members in 19 months through **data-driven** acquisition and retention strategies
- Ran a mixed-methods **user research** process (15 interviews, 100+ surveys, 3 usability testing rounds) and translated findings into a **prioritized backlog** that improved community engagement by 30%
- Directed website design in **Figma**, driving a 15% increase in event attendance and new-member conversion in 3 months

## PROJECTS

### Ramble | *Next.js, Supabase (PostgreSQL), Claude API, Docker*

Aug 2026 – Present

- Built a **full-stack** AI journaling web app with **Next.js**, **Supabase (PostgreSQL)**, the **Claude API** and **Docker**
- Built an **LLM-powered insight feature** that analyzes a month of entries in one Claude API call to surface top emotion, emotion breakdown and notable events, **caching** results until entries change to avoid repeat API calls
- Wrote a **PRD** for a weekly insights feature, defining **user flows**, 7 prioritized **requirements**, Given/When/Then **acceptance criteria** and an event-tracking schema

### VCT 2025 Player Analytics | *Power BI, DAX, Power Query, Python (Pandas)*

Oct 2026

- Built a 3-page interactive **Power BI dashboard** exploring 9,800+ pro VALORANT match records
- Cleaned the raw data in **Python (Pandas)**, removing double-counted rollup rows and recovering 6,200+ values corrupted by Excel, validated against 100% of source records
- Wrote **DAX** measures for round-weighted averages, pick rates and league benchmarks, and added a role dimension in **Power Query** for **data modeling**

## EDUCATION

### University of Calgary

- Bachelor of Science, Software Engineering*
- Bachelor of Science, Biological Sciences*

*Sept 2024 – Expected: Jun 2028*

*Sept 2019 – Jun 2023*

## INTERESTS

Reading, Video Gaming, Music Performance, Martial Arts, Volleyball, Art and Design
